

Re: Requirement to name ACA Illinois as a named insured on your liability policy

Based upon the advice of our attorneys and our insurance consultant the American Camp Association, Illinois requires all camps that participate in the DFI Title XX Camping Services Program to add ACA Illinois as an additional insured under the camp's general liability insurance policy as a funding source with respect to the camp's operations.

Please contact your insurance agent, broker or company and ask them to name the American Camp Association, Illinois as an additional insured under your general liability policy and to send a copy of the certificate directly to us. Most underwriters who insure not for profit organizations are familiar with this type of request. Underwriters of for profit camps will be familiar with the form CG 20 26 used for this purpose. The suggested language could be "American Camp Association Illinois as funding sources with respect to the insured's operations."

Questions, Unclear Instructions, Confusing Information

If any of the above information or the enclosed material/forms are unclear, confusing or raises questions in your mind, please call us to request clarification. We want this process to work for you.

Thank you for your help.
